### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Remarks***

#### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 1, 2009 has been entered.

Claims 1, 2, 4, 6-12, 14, 16-24, 26 and 28-32 are pending.

#### ***Claim Rejections - 35 USC § 112***

The rejection of claim 1, 2, 4, 6-12, 14, 16-24, 26 and 28-32 under 35 U.S.C. 112, first paragraph has been withdrawn.

#### ***Claim Rejections - 35 USC § 102 and 103***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2, 4, 6, 10-12, 14, 16, 20-24, 26, 28 and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Prakash et al. (U.S. Pat. 6,444,343 B1).

Claims 7-9, 17-19 and 29-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Prakash et al. (U.S. Pat. 6,444,343 B1).

The rejection is maintained for the reasons of record. The examiner notes the amendment to claim 1 now reciting a Markush group to further define the claimed strong electrolytes, which is effective in obviating the 35 U.S.C. 112, second paragraph rejection (now withdrawn). Applicant's arguments filed with the present amendment have been fully considered, however they are not found persuasive. Applicant submits that Prakash only teaches a surfactant which may be an ammonium salt of an aliphatic monocarboxylic acid. While this argument may have merit, the examiner notes that the scope of the present claims, even as presently amended, does not positively require a strong electrolyte. The scope of the present claims recites *either* an organic compound different from the liquid organic fuel *or* a compound which is a strong electrolyte. To this end, it is maintained that Prakash et al.'s teaching an amine compound which is not sulfuric acid is readable on the present claims insofar as the claims recite an organic compound or strong electrolyte *in the alternative only*.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Julian Mercado whose telephone number is (571) 272-1289. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick J. Ryan, can be reached on (571) 272-1292. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
